

PUBLICATIONS AND CONGRESS PRESENTATIONS

1. **Curry LD**, Van Eeden C (1977). The influence of posture on the effectiveness of coughing. *South African Journal of Physiotherapy* 33: 8-10.
2. **Curry LD** (1979). Treatment note: Graphic representation of muscle strength. *South African Journal of Physiotherapy* p. 77.
3. **Bardin LD**.(1984). Ultrasound therapy in the treatment of mastitis. *South African Medical Journal* 65: 322.
4. **Bardin LD** (1997a). Spinal rehabilitation using group exercise therapy and education. *Proceedings of International Congress of South African Society of Physiotherapy*, Cape Town, South Africa, April 1997.
5. **Bardin LD** (1997b). Outcome measurements in spinal rehabilitation - a case report. *Proceedings of International Congress of South African Society of Physiotherapy*, Cape Town, South Africa, April 1997.
6. **Bardin LD** (1997c). Motivation for the use of Back Rehabilitation Classes. Manuscript for the South African Society of Physiotherapy Tariffs Committee, 1997.
7. **Bardin LD** (1998a). The gate control theory of pain (correspondence). *Physiotherapy* 84(1):56.
8. **Bardin LD** (1998b). Continuing Physiotherapy Education Courses: a critical appraisal. *South African Journal of Physiotherapy* 54(1): 10 - 12.
9. **Bardin LD** (1999). Outcomes research of a Total Back Care Programme: the results of a one year prospective study. *Proceedings of Congress of South African Society of Physiotherapy*, Bloemfontein, February 1999.
10. **Bardin LD** (1999). Outcomes research of a spinal rehabilitation programme. Academic year day proceedings, University of Stellenbosch Medical School, August 1999.
11. **Bardin LD** (1999). Rehabilitation of a top athlete following L4-S1 SSCS internal fixation. Academic year day proceedings, University of Stellenbosch Medical School, August 1999.
12. **Bardin LD** (1999). Spinal rehabilitation and manual therapy in rehabilitation of a top athlete following L4 – S1 fusion. *Proceedings of the Congress of the South African Sports Medicine Association*, Midrand, September 1999.
13. **Bardin LD** (1999). A spinal rehabilitation programme for selected patients with chronic/recurrent low back pain: the results of a one-year prospective study. *Proceedings of the Congress of the South African Orthopaedic Association*, Pretoria, September 1999.
14. **Bardin LD** (2000). Manual Therapists – quo vadis? *Manual Therapy* 5(1): 49 – 50 (correspondence).
15. **Bardin LD** (2000). Outcomes research of a spinal rehabilitation for chronic low back pain. *Proceedings of the SA Spine Society congress*, Cape Town, June 2000.
16. **Bardin LD** (2000). Initial to final stage back rehabilitation in a top athlete following multiple level lumbar fusion. *Proceedings of the SA Spine Society Congress*, Cape Town, June 2000.
17. **Bardin LD** (2000) A spinal rehabilitation programme for patients with recurrent/chronic low back pain: a one year prospective study. *Proceedings of the 7th Scientific Conference of the International Federation of Orthopaedic Manipulative Therapists*, Perth, November.
18. **Bardin LD** (2000) Rehabilitation of a top athlete following L4-S1 instrumented spinal fusion. *Proceedings of the 7th Scientific Conference of the International Federation of Orthopaedic Manipulative Therapists*, Perth,

- November.
19. **Bardin LD** (2002) Physiotherapy and low back pain - Part 1: Outcomes research in the quest for evidence. 2002 South African Journal of Physiotherapy 58:3-7
 20. **Bardin LD** (2002) Physiotherapy and low back pain – Part II: Outcomes research utilising the biopsychosocial model: biological outcomes. 2002 South African Journal of Physiotherapy 58:19-26
 21. **Bardin LD** (2003) Physiotherapy management of accelerated spinal rehabilitation in an elite level athlete following L4-S1 instrumented spinal fusion. Physical Therapy in Sport 2003 4:40-45
 22. **Bardin LD** (2003) Physiotherapy and low back pain – Part III: Outcomes research utilising the biopsychosocial model: psychosocial outcomes. South African Journal of Physiotherapy 59:16-24
 23. **Bardin LD**, Massarotti T (2003) Achilles tendinopathy from diagnosis to multifactorial management. Proceedings of the Sports Physiotherapy Australia Inaugural Conference, February, Surfers Paradise, Australia
 24. **Bardin LD** (2003) Outcomes research of a spinal rehabilitation programme using biopsychosocial assessment. Proceedings of the Musculoskeletal Physiotherapy Australia 13th Biennial Conference, Sydney, November.
 25. **Bardin LD** (2003) Clinical reasoning applied to specific stabilising exercises for management of a patient with a complex spinal syndrome. Proceedings of the Musculoskeletal Physiotherapy Australia 13th Biennial Conference, Sydney, November.
 26. **Bardin LD** (2003) Achilles tendinopathy. Manual Therapy 8(3) (correspondence).
 27. **Bardin LD**, Villaneuva E, Irwin Carruthers S (2004) Outcomes research of a spinal rehabilitation programme using biopsychosocial assessment. Proceedings of the 8th Scientific Conference of the International Federation of Orthopaedic Manipulative Therapists, Cape Town, March.
 28. **Bardin LD** (2004) Clinical reasoning applied to the prescription of specific stabilising exercises for a patient with lumbar disc herniation and persistent/unresolving radiculopathy. Proceedings of the 8th Scientific Conference of the International Federation of Orthopaedic Manipulative Therapists, Cape Town, March.
 29. **Bardin LD**, Massarotti E (2004) Achilles tendinopathy – from diagnosis to multifactorial management. Proceedings of the 8th Scientific Conference of the International Federation of Orthopaedic Manipulative Therapists, Cape Town, March.
 30. **BardinLD** (2005) Spinal rehabilitation for chronic/recurrent LBP – the quest for efficacy: from outcomes research of a spinal rehabilitation programme to ransomised, controlled trial of SPINE Pilates™ PhD symposium in Physical Activity, Nutrition and Exercise, Deakin University, Melbourne, November.
 31. **Bardin LD** (2005) Pilates: Physios. do it better with precise prescription and positive outcomes. Workshop for MPA 2005 conference, Brisbane, November.
 32. **Bardin LD** and Morris M (2006). A new model for clinical management of chronic low back pain with radiculopathy: target-specific treatment via specific exercise prescription. Doctor of Clinical Physiotherapy symposium, University of Melbourne, May 2006.
 33. Gabel P, **Bardin LD**, Burkett B, Neller A (2006) Integrating Injury Screening

with measurement and monitoring: a conceptual approach using a patient global assessment of body and limbs scale. South African Journal of Physiotherapy 62(4):2-8

34. **Bardin LD** and Morris M (2008). A proposed model of clinical decision-making for chronic low back pain with lumbar radiculopathy. Austin Health Research Week 2008.
35. **Bardin LD**, Morris M and Davis GA (2009). Lumbosacral radicular syndrome: a new clinical decision-making model to facilitate pathways for evidence-based conservative management and appropriate neurosurgical referral. Neurosurgical Society of Australasia Annual Scientific meeting, Alice Springs September, 2009.
